Section 17. Each miss shall result in the shooter being penalized one second (1.000) for a miss.

Section 17A. In the event a shooter's wax splits, the shooter will be warned the first time and given three minutes to leave the line and address the issue. If it happens again, in the same contest, the shooter will lose the current shot.

Section 18. The actual time recorded will be awarded for each hit, up to one second (1.000). More than one shot per draw, except in doubles, is not allowed. Penalty-no matter if target is hit or missed, loss of that shot and that shot only. Shooting two shots at a single target constitutes an illegal event.

Section 18A. If a record is made at a contest, the shooter will have three tries to "back-up" the record by shooting a shot that is no more than three one-hundredths (.030) of a second slower than the record setting shot. If a shot is "backed-up" and it is a tie for that event, then the contestant shall be listed as a co-holder. If the shot is not "backed-up" successfully, then the shot will count in the contest but will not be entered in the record books maintained by the Records Keeper.

Section 18B. Preserving the Visible Distance Hand Rule Shot and Series Records From 19752009 all records were set using the visible distance hand rule. As an honor to the pioneers of fast draw, former members and now deceased shooters, the records at the end of 2009 shall be published as such on the OFDAI website.

Section 19. Malfunction of the timer and/or target. A malfunction is when a target light source illuminates and doesn't shut off when the target is hit or in the case of a burned out light source, the light source does not illuminate a target in either Standing or Walk and Draw events.

Section 19A. If a malfunction of the timer and/or target occurs, the contestant will be given a choice of taking an average of his/her clean hits in the phase for that shot, or taking the shot over and accepting the resulting hit or miss. The contestant will be given a maximum of three tries to establish an average if there are no clean hits during the phase. In the case of step-back or stepup events, the average must be obtained at the distance the malfunction occurred.

Section 19B. The contestant will be given a choice of taking an average of his/her clean hits, or taking the shot over and accepting the results, hit or miss, if there is a clear distraction that caused them to jump the light. (Such as a camera flash or loud noise.)

If one minute has expired, the timer operator will give the set command to the shooter. If a shot is fired, it will be recorded as a miss for their first shot, regardless if the target is hit or not.

Section 25. The shooter is the only one allowed inside the firing area along with the line judge, hand judge and target judge. All others must stay outside the loading area with exception of junior members, who may be accompanied by parent or sponsor. In the case of wax events where greased targets are used, and for blank events where balloon targets are used, one person may judge both hand and target for each shooter.

Section 26. If a mistake is made on a contestant's score sheet and it is not discovered until after the match is over or at a later date, and can be proven by witnesses or a video, a protest can be made at any time within two weeks after the contest is over. If trophies or placement in that contest are involved the adjustments will be made accordingly.
